ini router saya:

```
// admin
$routes->get('/admin/login', 'Admins\AdminsController::viewLogin', ['as' => 'view.login', 'filter' => 'loginfilter']);
$routes->post('/admin/check-login', 'Admins\AdminsController::checkLogin', ['as' => 'check.login']);

$routes->group('admin', ['filter' => 'authfilter'], function ($routes) {
    $routes->get('index', 'Admins\AdminsController::index', ['as' => 'admin.index']);

    $routes->get('admin-logout', 'Admins\AdminsController::adminLogout',['as' =>'admin.logout']);

    // user
    $routes->get('all-admin', 'Admins\AdminsController::allAdmin', ['as' => 'admin.all.admin']);
    $routes->get('create-admin', 'Admins\AdminsController::createAdmin', ['as' => 'create.admin']);
    $routes->post('create-admin', 'Admins\AdminsController::storeAdmin', ['as' => 'store.admin']);
```
